

# FORTE SERIES™

The versatile range that meets all requirements.

## Theatre and Auditorium Seating

Finally venue operators can provide patrons, in every row of their facility, equivalent comfort of the highest standard with Forte.

Forte also provides operators with additional seating locations through its unique beam mounting system, where seat modules mount independent of the bracket attachment to sub-structure.

Maintenance is made easy with the chair's toggle locking system to beam, and Camatic's patented cushion removal system in both seat and backrest.

FORTE D2
